

Accessories

Connectors and cables

Adapter cable for programming the HMG10P/PMG10P SSI series with terminal box

Description

Adapter cable with D-SUB connector (male) for connection of encoders of HMG10/PMG10 SSI series with terminal box to the WLAN adapter Z-PA.SDL.1. The encoder can be connected to the WLAN adapter in ONLINE or OFFLINE mode.

Part number

11191144 Adapter cable for programming the HMG10P/PMG10P SSI series with terminal box D-SUB connector (male) 15-pin with connecting cable and 8-pin connecting terminal

Scope of delivery

D-SUB connector (male) 15-pin with connecting cable and 8-pin connecting terminal

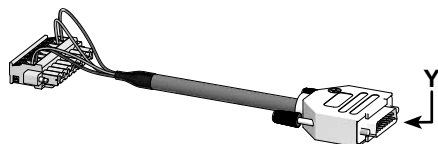

Suitable for

Z-PA.SDL.1 WLAN adapter, HMG10P/PMG10P

Assembly drawing

OFFLINE(ONLINE) mode

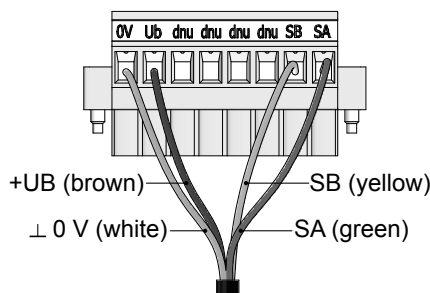

Connecting terminal for HMG10P/PMG10P SSI series with terminal box

For the ONLINE mode the connecting terminal can be removed and the cable ends SA and SB can be connected directly to the connecting terminals of the encoder or connected to the existing cable ends (customer installation) in the machine/plant control cabinet. The voltage supply of the encoder is provided by the machine/plant control.

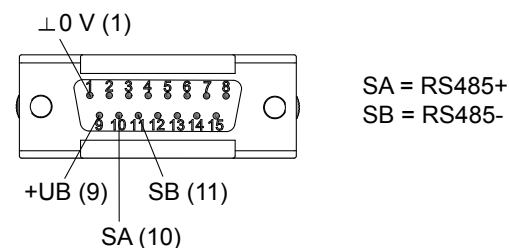

Terminal assignment

Connecting terminal for HMG10P/PMG10P SSI series with terminal box

SA = RS485+
SB = RS485-
