

TF6120 | TC3 OPC DA

OPC is the standard for supplier-independent communication in automation technology. OPC DA (Data Access) is based on the Microsoft COM/DCOM standard.

TwinCAT OPC DA Server

- specifications OPC-DA2x and OPC-XML-DA
- configurator for the set-up
- demo DA client for diagnostic purposes and the loading of recipes

TF6120 can be replaced by the software component TwinCAT OPC UA Gateway of the TF6100 product.

Technical data	TF6120
Required	TC1000
Target system	Windows XP

Ordering information	
TF6120-0v30	TC3 OPC DA, platform 30 (Economy Plus)
TF6120-0v40	TC3 OPC DA, platform 40 (Performance)
TF6120-0v50	TC3 OPC DA, platform 50 (Performance Plus)
TF6120-0v60	TC3 OPC DA, platform 60 (Mid Performance)
TF6120-0v70	TC3 OPC DA, platform 70 (High Performance)
TF6120-0v80	TC3 OPC DA, platform 80 (Very High Performance)
TF6120-0v81	TC3 OPC DA, platform 81 (Many-core 5...8 Cores)
TF6120-0v82	TC3 OPC DA, platform 82 (Many-core 9...16 Cores)
TF6120-0v83	TC3 OPC DA, platform 83 (Many-core 17...32 Cores)
TF6120-0v84	TC3 OPC DA, platform 84 (Many-core 33...64 Cores)
TF6120-0v90	TC3 OPC DA, platform 90 (Other)
TF6120-0v91	TC3 OPC DA, platform 91 (Other 5...8 Cores)
TF6120-0v92	TC3 OPC DA, platform 92 (Other 9...16 Cores)
TF6120-0v93	TC3 OPC DA, platform 93 (Other 17...32 Cores)
TF6120-0v94	TC3 OPC DA, platform 94 (Other 33...64 Cores)
