

## ASi-3 4I/4O modules for two 24 V motorized rollers

e.g.

Interroll (EC200, EC300 or EC310) or  
RULMECA (RDR BL-2) or  
Rollex (type 840) or  
Itoh Denki (PM500XC/XK, PM605XC/XK)

with 2 binary and 2 analog outputs

Mixed input/output module

Speed setting of ASi parameter

Protection category IP67

(figure similar)

**Article no. BWU2398:** Control module for two 24 V motorized rollers Interroll (EC200, EC300) or Rollex (type 840)

**Article no. BWU2575:** Control module for two 24 V motorized rollers Interroll (EC310) or RULMECA (RDR BL-2) or Itoh Denki (PM500XC/XK, PM605XC/XK)

**Article no. BWU2765:** Control module for two 24 V motorized rollers Interroll (EC310) or RULMECA (RDR BL-2) or Itoh Denki (PM500XC/XK, PM605XC/XK)

**Article no. BWU2958:** Control module for two 24 V motorized rollers Interroll (EC310) or RULMECA (RDR BL-2) or Itoh Denki (PM500XC/XK, PM605XC/XK), ASi via M12

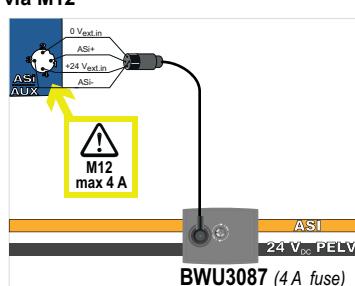

Article no.	BWU2958	BWU2398	BWU2575	BWU2765
<b>General data</b>				
Motorized rollers	up to 2 x Interroll (EC310) or 2 x RULMECA (RDR BL-2) or 2 x Itoh Denki (PM500XC/XK, PM605XC/XK)	2 x Interroll (EC200, EC300) or 2 x Rollex (Typ 840)	2 x Interroll (EC310) or 2 x RULMECA (RDR BL-2) or 2 x Itoh Denki (PM500XC/XK, PM605XC/XK)	
<b>Connection</b>				
ASi/AUX connection	M12 <sup>(1)</sup>		profile cable and piercing	
Periphery connection			M12	
<b>ASi</b>				
Profile		S-7.A.7, ID1 = 7 (fixed)		
Address		AB address		
Required Master profile		≥M4		
As of ASi specification		3.0		
Operating voltage		30 V (18 ... 31.6 V)		
Max. current consumption		200 mA		
<b>AUX</b>				
Voltage		24 V (18 ... 30 V)		
Max. current consumption	4 A		6 A continuously, 11 A peak	

Article no.	BWU2958	BWU2398	BWU2575	BWU2765			
<b>Input</b>							
Number	2 x sensor inputs + 2 x motor fault inputs						
Power supply	sensor inputs: out of AUX motor fault inputs: out of AUX	sensor inputs: out of ASi motor fault inputs: out of AUX					
Power supply of attached sensors	120 mA						
Switching threshold	$U_{in} < 5 \text{ V}$ (low) $U_{in} > 10 \text{ V}$ (high)						
<b>Output</b>							
Number (digital)	2						
Number (analog)	2 (depending)						
Power supply	out of AUX (galvanic separation)						
Overload voltage tolerated by reaction (AUX)	35 V-resistant brake resistor compatible						
Max. output current	10 mA per output						
Supply of motors	out of AUX						
	per motor: 3 A continuously, $\sum(\text{motor}) \leq 4 \text{ A}$	per motor: 3 A continuously					
Line protection fuse	no <sup>(2)</sup>	no <sup>(6)</sup>		yes, separately for each motor, 3,5 AT, at 7 A (200%) release be- tween 1 s and 120 s, fuse UL certified <sup>(9)</sup>			
<b>Display</b>							
LED ASI (green)	on: ASi voltage on off: no ASi voltage						
LED FLT/FAULT (red)	on: no data exchange flashing: peripheral fault <sup>(3)</sup>			on: no data exchange flashing: peripheral fault <sup>(3)</sup>			
LED AUX (green)	on: 24 V DC AUX off: no 24 V DC AUX						
LEDs I1, I2 (yellow)	state of inputs I1, I2						
LEDs M1, M2 (yellow)	state of outputs M1 (O1), M2 (O3)						
<b>Environment</b>							
Applied standards	EN 61000-6-2 EN 61000-6-4 EN 60529						
Can be used in passively safe paths up to SIL3/PLe	no <sup>(4)</sup>	yes <sup>(7)</sup>	yes <sup>(8)</sup>	yes <sup>(10)</sup>			
Operating altitude	max. 2000 m						
Operating temperature	-30 °C ... +70 °C <sup>(5)</sup>						
Storage temperature	-25 °C ... +85 °C						
Housing	plastic, for screw mounting	plastic, for DIN rail mounting					
Protection category	IP67						
Isolation voltage	$\geq 500 \text{ V}$						
Weight	100 g						
Dimensions (W / H / D in mm)	45 / 116,5 / 47,5	45 / 80 / 42					

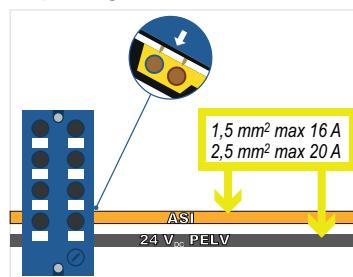

(1) **Line protection:**

If the module is supplied via a M12 connection with A or B coding, it may only be used with a current load of max. 4 A per pin in acc. with IEC 61076-2-101 and IEC 61076-2-109. A fused tap is recommended. There is no such limitation for modules supplied via piercing contacts.

**Connection to ASi and AUX  
via M12**

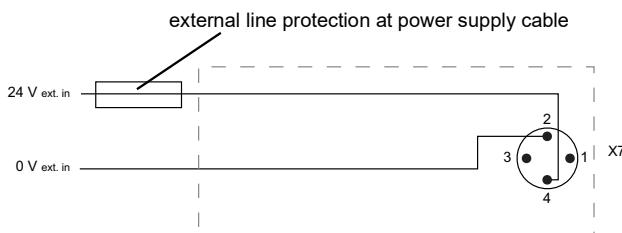

**via piercing contacts**

- (2) The motor module is designed to supply the 24 V directly to the motor. At high currents or surges as they occur for example at braking, the module will not be damaged.

The cable protection should be realized outside the motor module with additional measures.

- (3) see table „Peripheral fault indication“

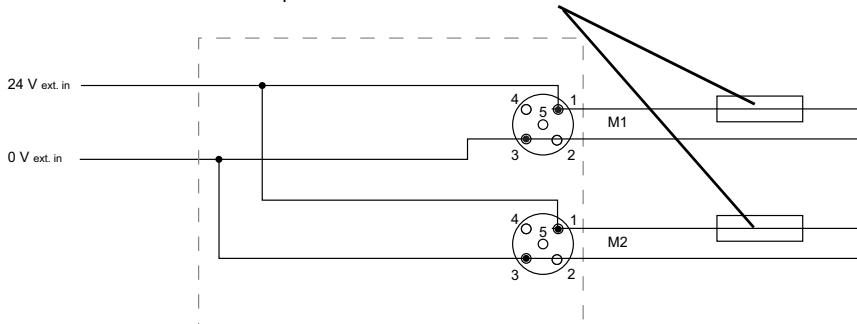

- (4) The module is not suitable for use in passively safe paths because an exclusion of errors cannot be assumed for the connection of the two potentials, ASi and AUX.

- (5) Temperature range up to -30°C from Ident.No. ≥16386 (BWU2958); Ident.No. ≥16387 (BWU2398); Ident.No. ≥16385 (BWU2575); Ident.No. ≥16384 (BWU2765).

- (6) The motor module is designed to supply the 24 V directly to the motor. At high currents or surges as they occur for example at braking, the module will not be damaged.

The cable protection should be realized outside the motor module with additional measures.

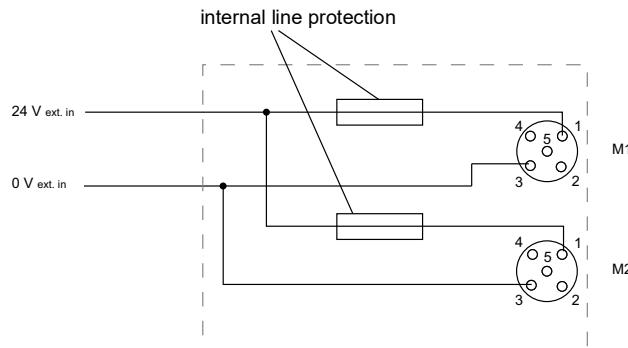

**external line protection at motor connection cable**

- (7) BWU2398 from Ident. No. 17311; The module is suitable for use in passively safe paths because an exclusion of errors can be assumed for the connection of the two potentials, ASi and AUX.

- (8) BWU2575 from Ident. No. 17308; The module is suitable for use in passively safe paths because an exclusion of errors can be assumed for the connection of the two potentials, ASi and AUX.

- (9) In the motor module UL approved fuses are placed before each of the motor supply connections. A short circuit in the motor causes this fuse to blow, protecting the connection cable between the module and motor. After blowing the fuse the module is no longer functional and needs to be replaced. The characteristics of the fuse must be checked against the motor data before using the module.  
 The protection circuit in the module allows a very simple protection of the motor cables. The fuse for the cable protection is a slow-blow one; without short circuit the robust behavior of the module remains.

- (10) BWU2765 from Ident. No. 17309; The module is suitable for use in passively safe paths because an exclusion of errors can be assumed for the connection of the two potentials, ASI and AUX.

Configuration analog-value O1/O3					
			BWU2398	BWU2575 / BWU2765 / BWU2958	
P0	P1	P2	O1/O3	Pin 5	Pin 5
0	0	0	0	0 V	0 V
			1	2,42 V	2,3 V
1	0	0	0	0 V	0 V

Bit assignment		
Data bit		Function
DI0	I1	Input I1
DI1	I2	Input I2
DI2	I3	State of (motor-fault) motor 1
DI3	I4	State of(motor-fault) motor 2
DO0	O1	Start/Stop motor 1
DO1	O2	Direction of rotation motor 1
DO2	O3	Start/Stop motor 2
DO3	O4	Direction of rotation motor 2

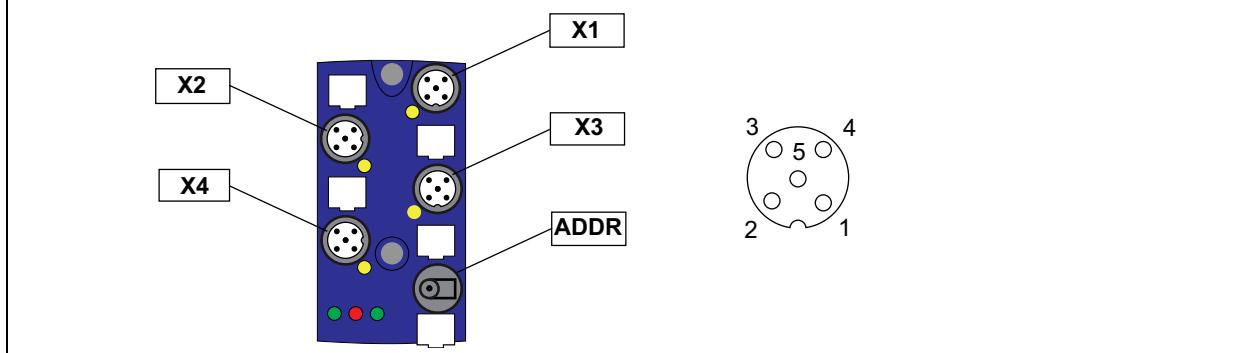

UL-specifications (UL508) <b>BWU2398, BWU2575, BWU2765, BWU2958</b>	
External protection	An isolated source with a secondary open circuit voltage of $\leq 30 \text{ V}_{\text{DC}}$ with a 3 A maximum over current protection. Over current protection is not required when a Class 2 source is employed.
In general	UL mark does not provide UL certification for any functional safety rating or aspects of the above devices.

Article no.	Peripheral fault indication			
	Overload output	AUX voltage missing	Overload sensor supply	at least 1 motor fuse is blown

## Pin assignment

Signal name	Explanation
Ix	Digital input x
24 V <sub>ext</sub> out	Power supply, out of external voltage, positive pole (AUX, actuator supply)
0 V <sub>ext</sub> out	Power supply, out of external voltage, negative pole (AUX, actuator supply)
24 V <sub>ext</sub> in	Input voltage, positive pole (AUX+)
0 V <sub>ext</sub> in	Input voltage, negative pole (AUX-)
ASi +, ASi -	connection to ASi bus
24 V <sub>out</sub> of ASi	Power supply, out of ASi, positive pole (sensor supply)
0 V <sub>out</sub> of ASi	Power supply, out of ASi, negative pole (sensor supply)
n.c.	not connected

Connections							
Article no.	M12 connection	Name	Pin 1	Pin 2	Pin 3	Pin 4	Pin 5

## Accessories:

- ASi substructure module for 4-channel module in 45 mm-housing (article no. BW2349)
- ASi substructure module (CNOMO) for 4-channel module in 45 mm-housing (article no. BW2350)
- Universal protection cap ASi-5/ASi-3 for M12 sockets, IP67 (art. no. BW4056)
- Sealing profile IP67 (IDC plug), 45 mm (art. no. BW3283)
- Passive Distributor ASi/AUX to 2 x M12 socket, internal protection via changeable 4 A slow-blow fuses (art. no. BWU3087)
- ASi-5/ASi-3 Address Programming Device (art. no. BW4708)
- It is recommended to use pre-assembled cables to connect the power source with the module.
- It is recommended to use pre-assembled cables to connect the motors to the module.
