

LS207003

FIBER OPTIC SENSORS • FIBER OPTICS PLASTIC FIBERS

Fiber optics in combination with the appropriate fiber optic amplifier function as contactless and wear-free position switches that can also be used in harsh environmental conditions. They detect objects independent of their characteristics (e.g., shape, color, surface structure, material). Because the ends and heads of the fiber optics have small dimensions and the fiber optics are flexible, very elegant solutions can be created for detecting objects in places that are difficult to access. Fiber optics can be used without special precautions in potentially explosive areas and in zones with electrical and/or magnetic fields (high-voltage installations, electrical welding equipment) as their function is not thereby affected. Fiber optics are available in versions for implementing the function as through-beam sensor or diffuse reflection sensor.

Ejection control Yes End piece length 35 mm End piece thread pitch 0.7 mm Fiber diameter 1 mm Fiber optics core material Plastic Heavy soiling Yes
End piece length End piece thread pitch Fiber diameter Fiber optics core material Heavy soiling 35 mm 0.7 mm 1 mm Plastic Yes
End piece thread pitch Fiber diameter 1 mm Fiber optics core material Heavy soiling Yes
Fiber diameter 1 mm Fiber optics core material Plastic Heavy soiling Yes
Fiber optics core material Plastic Heavy soiling Yes
Heavy soiling Yes
Housing design Cylinder, screw-thread
, ,
Housing material Stainless steel
Material of cable sheath Plastic
Metric thread size of end piece 4 mm
Number of fibers 2
Overall length 2000 mm
Punching tools Yes
Sensing head diameter 2.6 mm
Sheathing material Plastic
Type of mechanical connection Clamped terminal connection
Version Through-beam sensors

ELECTRICAL DATA

Analogue output 0 mA 20 mA	No
Analogue output 0 V 10 V	No
Analogue output -10 V +10 V	No
Analogue output 4 mA 20 mA	No
Light exit	Axial
Max. switching distance	530 mm

ELECTRICAL DATA

Metric thread size of sensing head	2.6 mm
With blanking function	No

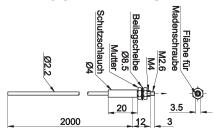

OPTICAL DATA

Fiber optic for attachment optics	Yes
Range	530 mm

OTHER DATA

Feeding technology	Yes

DIMENSIONAL DRAWING

INSTALLATION

Mounting / Installation may only be carried out by a qualified electrician!

DISPOSAL

SAFETY WARNINGS

Before initial operation, please make sure to follow all safety instructions that may be provided in the product information!
