#### **MAGNETIC SENSORS • PROXIMITY SWITCHES**

Magnetic proximity switches are contact-free sensors. They detect magnetic objects and - or magnets, regardless of whether they move or not. Since magnetic fields penetrate all non-magnetizable materials, the sensors can detect magnets through walls made of nonferrous heavy metal, stainless steel, aluminum, plastic, wood or through excessive sailing, for instance. The achievable sensing range of the devices depends on the strength of the affecting magnetic field. Magnetic sensors are used for positioning (e.g. position checks on hoisting gear), speed checks (e.g. on conveyor belts or transmission cog wheels through the aluminum housings) or for position detection (e.g. of goods carriers).

## **MECHANICAL DATA**

| Ambient temperature                         | -25 °C 70 °C           |
|---|------------------------|
| Degree of protection (IP)                   | IP67                   |
| Housing design                              | Cylinder, screw-thread |
| Housing material                            | Stainless steel        |
| Increased ambient temperatures > 80°C       | No                     |
| Metal housing                               | Yes                    |
| Sensor diameter                             | 8 mm                   |
| Sensor length                               | 59 mm                  |
| Strong vibration / motion                   | No                     |
| Thread length                               | 45 mm                  |
| Thread pitch                                | 1 mm                   |
| Thread size, metric                         | 8                      |
| ELECTRICAL DATA                             |                        |
|   | Vec                    |
| Cross/short circuit identification possible | Yes                    |
| Hysteresis                                  | 6 mm                   |
| Low sensitivity                             | No                     |
| Low switching hysteresis                    | No                     |
| Magnetic sensitivity                        | 2.8 mT                 |
| Max. output current                         | 200 mA                 |
| No-load current                             | 20 mA                  |
| Number of pins                              | 3                      |
| Number of switching outputs                 | 1                      |
| Operating voltage                           | 8 V 30 V               |
| Reed contact                                | No                     |
| Reverse polarity protection                 | Yes                    |
| Setting via teach-in                        | No                     |
| Short-circuit-proof                         | Yes                    |
| Suitable for safety functions               | No                     |
| Switching distance                          | 40 mm                  |
| Switching frequency                         | 1000 Hz                |
|   |                        |

# **IPF** ELECTRONIC

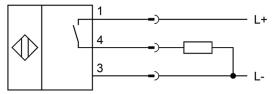

## **ELECTRICAL DATA**

| No                    |
|-----------------------|
| Connector M8          |
| Normally open contact |
| PNP                   |
| 2 V                   |
| DC                    |
| Yes                   |
| No                    |
|                       |

## **OTHER DATA**

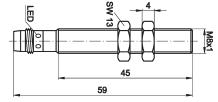

| Cylinder sensors               | No  |
|--------------------------------|-----|
| Harsh environmental conditions | Yes |
| Metallic sensor surface        | Yes |
| Oil and cooling lubricants     | Yes |
| Short travel path              | No  |

### CONNECTION

Colors: 1 = BN (brown), 3 = BU (blue), 4 = BK (black) **Functions:** 1 = L+, 3 = L-, 4 = PNP NO

## **DIMENSIONAL DRAWING**

#### **INSTALLATION**

Mounting / Installation may only be carried out by a qualified electrician!

#### DISPOSAL

# **SAFETY WARNINGS**

Before initial operation, please make sure to follow all safety instructions that may be provided in the product ipf electronic gmbh • Kalver Straße 25 - 27 • 58515 Lüdenscheid - Germany | Tel +49 2351 9365-0 • Fax +49 2351 9365-19 | info@ipf-electronic.com • www.ipf-electronic.com
