

VK98E159

CONNECTION TECHNOLOGY • CABLE SOCKETS FIELD-ATTACHABLE

ipf cable sockets are used primarily for establishing the electrical connection of sensors. Their features are characterized by rugged design, the highest protection classes (IP67 | IP68 | IP69K) and, if desired, with 360° shielding. With the features: bus-ready, suitable for use with drag chains and robots, resistance to oil and chemicals, resistance to welding sparks, their resistance to cleaning agents or high-pressure and steam-jet cleaning, the expanded temperature range of up to +230°C, the rapid interconnection technology and special data transmission properties, the cable sockets meet all requirements in automation technology.

MECHANICAL DATA

Contact coating material	Ni/Au
Degree of protection (IP)	IP40
Housing material	Brass
Perm. ambient temperature of cable, fixed cable	-40 °C ... 85 °C
Positioning of cable feed, field side	Straight
Suitable for trailing chain	Yes

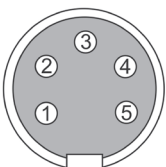

ELECTRICAL DATA

Number of pins	5
Rated current I _n	6 A
Rated voltage	250 V
Shielded	No
Suitable for self-assembly	Yes
Type of electrical connection, field side	M16

OTHER DATA

Flame resistant	No
Halogen-free	No
IR-networked	No
Oil and cooling lubricants	Yes
Welding area	Yes

CONNECTION

DIMENSIONAL DRAWING

INSTALLATION

Mounting / Installation may only be carried out by a qualified electrician!

DISPOSAL

SAFETY WARNINGS

Before initial operation, please make sure to follow all safety instructions that may be provided in the product information!
