

## VK991198

### CONNECTION TECHNOLOGY • CABLE SOCKETS /CONNECTORS ONE-SIDED PRE-ASSEMBLED

ipf cable sockets are used primarily for establishing the electrical connection of sensors. Their features are characterized by rugged design, the highest protection classes (IP67 | IP68 | IP69K) and, if desired, with 360° shielding. With the features: bus-ready, suitable for use with drag chains and robots, resistance to oil and chemicals, resistance to welding sparks, their resistance to cleaning agents or high-pressure and steam-jet cleaning, the expanded temperature range of up to +230°C, the rapid interconnection technology and special data transmission properties, the cable sockets meet all requirements in automation technology.

#### MECHANICAL DATA

|   |                      |
|---|----------------------|
| Cable length                            | 30 m                 |
| Material of cable sheath                | PTFE                 |
| Positioning of cable feed, field side   | Straight             |
| Positioning of cable feed, housing side | Straight             |
| Wire cross section                      | 0.25 mm <sup>2</sup> |

#### ELECTRICAL DATA

|   |                    |
|---|--------------------|
| Shielded                                    | Yes                |
| Type of electrical connection, housing side | Free conductor end |
| Type of plug-in contact, field side         | Female (socket)    |

#### OTHER DATA

|                 |    |
|-----------------|----|
| Flame resistant | No |
| Halogen-free    | No |
| IR-networked    | No |

#### DIMENSIONAL DRAWING

#### INSTALLATION

Mounting / Installation may only be carried out by a qualified electrician!

#### DISPOSAL

#### SAFETY WARNINGS

Before initial operation, please make sure to follow all safety instructions that may be provided in the product information!
