

Model Number

GLP50-RT/40b/103/156

Photoelectric slot sensor with 3-pin, M8 x 1 connector

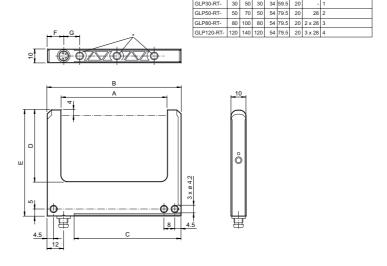

Features

- Plastic version
- · Clearly visible function indicators
- Degree of protection IP67

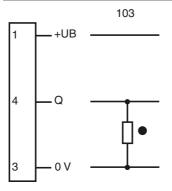

Product information

An extremely favorable price/performance ratio and an innovative display concept characterize the GLP series. The switching states are visible from all directions. The optional attachment holes or dove tail joint significantly increase installation flexibility. The external, dynamic Teach-In function allows you to teach in moving objects easily.

Dimensions

Electrical connection

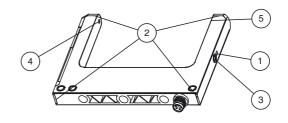

- O = Light on
- = Dark on

Pinout

Indicators/operating means

1	Operating display	green
2	Signal display	yellow
3	TEACH-IN button	
4	4 Emitter	
5	Receiver	

Ceneral specifications Light source Light type Object size Slot width Ambient light limit Indicators/operating means Function indicator Control elements Electrical specifications Operating voltage Ripple No-load supply current Output Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time Ambient conditions		LED , 640 nm pulsing modulated visible red light min. 0.5 mm
Light type Object size Slot width Ambient light limit Indicators/operating means Function indicator Control elements Electrical specifications Operating voltage Ripple No-load supply current Output Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		modulated visible red light min. 0.5 mm
Object size Slot width Ambient light limit Indicators/operating means Function indicator Control elements Electrical specifications Operating voltage Ripple No-load supply current Output Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		min. 0.5 mm
Slot width Ambient light limit Indicators/operating means Function indicator Control elements Electrical specifications Operating voltage Ripple No-load supply current Output Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		
Ambient light limit Indicators/operating means Function indicator Control elements Electrical specifications Operating voltage Ripple No-load supply current Output Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		50 mm
Indicators/operating means Function indicator Control elements Electrical specifications Operating voltage Ripple No-load supply current Output Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		00 11111
Function indicator Control elements Electrical specifications Operating voltage Ripple No-load supply current Dutput Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		10000 Lux
Control elements Electrical specifications Operating voltage Ripple No-load supply current Output Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		
Electrical specifications Operating voltage Ripple No-load supply current Output Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		LED yellow , lit when the light beam is interrupted LED gree ready
Operating voltage Ripple No-load supply current Output Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		Teach-In key , Sensitivity adjustment and Mode adjustmen (NO/NC) $$
Ripple No-load supply current Output Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		
No-load supply current Dutput Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time	U_B	10 30 V DC
Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		10 %
Switching type Signal output Switching voltage Switching current Voltage drop Switching frequency Response time	I ₀	≤ 30 mA
Signal output Switching voltage Switching current Voltage drop Switching frequency Response time		
Switching voltage Switching current Voltage drop Switching frequency Response time		light/dark on
Switching current Voltage drop Switching frequency Response time		1 PNP, short-circuit protected, reverse polarity protected, or collector
Voltage drop Switching frequency Response time		max. 30 V DC
Switching frequency Response time		max. 100 mA
Response time	U _d	≤ 2.4 V
· .	f	2000 Hz
Ambient conditions		0.25 ms
Ambient conditions		
Ambient temperature		-20 60 °C (-4 140 °F)
Storage temperature		-20 80 °C (-4 176 °F)
Mechanical specifications		
Degree of protection		IP67
Connection		M8 connector, 3-pin
Material		
Housing		PC
Optical face		plastic
Mass		30 g
Compliance with standards and over	directi-	•
Standard conformity		
Product standard		EN 60947-5-2:2007 IEC 60947-5-2:2007
A		
Approvals and certificates Protection class		II

cULus Listed, Class 2 Power Source

"For use in NFPA 79 Applications only" Adapters providing field wiring means are available from the manufacturer. Refer to manufacturers information.

Accessories

OMH-K03

dove tail mounting clamp

V3-GM-2M-PUR

Cable socket, M8, 3-pin, PUR cable

V3-WM-2M-PUR

Cable socket, M8, 3-pin, PUR cable
