

Dimensions

Electrical connection

Model number

VAA-2E1A-G10-SAJ/EA2J-1M

G10 safety module  
2 safety inputs and  
1 standard electronic output

Features

- Connection of contact safety switches, e.g. EMERGENCY STOP button
- Applications up to PL<sub>e</sub>
- Modular safety solution
- Ultra-compact enclosure
- Degree of protection IP67

Indicating / Operating means

Release date: 2018-08-02 10:12 Date of issue: 2018-08-02 229182\_eng.xml

**Technical data****General specifications**

Slave type	Safety-Slave
AS-Interface specification	V3.0
Required master specification	≥ V2.1
UL File Number	E223772 "For use in NFPA 79 Applications only"

**Indicators/operating means**

LED FLT	error display; LED red red: communication error or address is 0
LED AS-i	AS-Interface voltage; green LED green: voltage OK flashing green: address 0
LED IN	switching state (input); 2 LED yellow
LED OUT	Switching state (output); LED yellow

**Electrical specifications**

Rated operating voltage	$U_e$	26.5 ... 31.6 V from AS-Interface (PELV)
Rated operating current	$I_e$	≤ 90 mA
Protection class		III
Surge protection		overvoltage category III
Rated insulation voltage		32 V
Pulse withstand voltage		0.8 kV

**Input**

Number/Type	2 safety-related inputs for mechanical contacts, crossed-circuit monitored: 2 single-channel contacts: up to category 2/PL c to ISO 13849-1 or 1 2-channel contact: up to category 4/PL e to ISO 13849-1
Supply	from AS-Interface
Voltage	20 ... 30 V DC pulsed
Current	input current limited ≤ 15 mA, short-circuit protected

**Output**

Number/Type	1 conventional electronic output, PNP
Supply	from AS-Interface
Current	50 mA , short-circuit/overload protected
Voltage	$(U_{ASi} - 7.0 V) \leq U_{OUT} \leq U_{ASi}$

**Directive conformity**

**Ambient conditions**

Ambient temperature	-20 ... 60 °C (-4 ... 140 °F)
Storage temperature	-25 ... 80 °C (-13 ... 176 °F)
Relative humidity	< 95 %
Altitude	≤ 2000 m above MSL

**Function**

The VAA-2E1A-G10-SAJ/EA2J- \* is an AS-Interface safety module with 2 safety-related inputs and one conventional output. A two-channel mechanical switch or a single channel mechanical switch each can be connected to the two safety-related inputs. The output is a conventional electronic non-safety-related output, which can be loaded with 50 mA.

The module is suitable for remote connection of switches in very limited space. The one-piece housing provides a degree of protection of IP67 .

The connection to the AS-Interface cable is achieved by means of insulation piercing method of the inserted flat cables. The inputs and the output are connected via open cable ends.

To display the current switching state, there is a LED for each channel mounted on top of the module. A LED indicating the AS-Interface communication and the address 0 of the module is also available. If a communication error occurs, the outputs are switched off (only at P0 = 1).

The module can be used up to Category 4/PL e according to ISO 13849-1, SIL 3 according to EN 62061.

If two single-channel switches are connected, the module can be used up to Category 2/PL c according to ISO 13849-1, SIL 1 according to EN 62061.

### Safety Instructions

If a single-channel switch is used, the module is suitable for use up to category 2/PL c in accordance with ISO 13849-1, or SIL 1 in accordance with EN/IEC 62061. Only tested and certified power supplies with safe isolation may be used to supply power. These power supplies must have PELV voltage in accordance with EN 50295 / IEC 62026-2, and a minimum MTBF of 50 years. The power supplies are designed to exclude a short circuit between the primary and secondary sides.

### Mounting Instructions

You may screw the device onto a level mounting surface using two M4 attachment screws. The attachment screws are not included.

Lay all cables in accordance with EN/IEC 60204.

Do not use the outputs for safety-related functions.

Do not connect inputs and outputs, which are supplied via the module from AS-interface or via auxiliary power, with power supply and signal circuits with external potentials.

See the manual for a guide to the intended use.
