Model Number

IUH-F190-V1-FR1-05

UHF read/write head for IDENT*Control*, Singapore and Vietnam

Features

- Flexible UHF read/write head with medium detection range

- Ready-made PLC function blocks designed for quick and easy system integration

- Compact and robust housing for harsh industrial environments

- Switchable antenna polarization guarantees reliable tag detection and enhances process flow

- Multi-tag reading of up to 40 tags ensures increased productivity

- For connection to IDENT*Control* control interface

Technical data

General specifications		
Operating frequency		866 MHz … 868 MHz: Singapore, Vietnam Transmission licenses for other countries on request
Emitted power		3 ... 500 mW ERP adjustable
Operating distance		typ. 2 m
Indicators/operating means		
LED green		Power on
LED yellow		Read/write operation successful
LED blue		Transmission mode
Electrical specifications		
Current consumption		≤ 450 mA
Power consumption	P_0	≤ 9 W
Supply		from the IDENTControl
Surge protection		category 2
Standard conformity		
Electromagnetic compatibility		EN 301489-1 V2.1.1:2017 EN 301489-3 V2.1.1:2017
Degree of protection		EN 60529:2000
Safety		EN 62368-1:2014+AC:2015
Ambient conditions		
Classification		Environmental situation A (controlled environment)
Ambient temperature		-20 ... 70 °C (-4 ... 158 °F) (Operation with nontransmission periods, adjustable) -20 ... 60 °C (-4 ... 140 °F) (Continuous transmission mode)
Storage temperature		-40 ... 85 °C (-40 ... 185 °F)
Pollution degree		2
Mechanical specifications		
Degree of protection		IP67
Connection		M12 x 1 connector
Material		
Housing		PA 6
Base		diecast aluminum
Mass		810 g

Notes

This product is a wireless device and may be operated only in the country for which a transmission license exists. Information regarding transmission licenses can be found on the datasheet for the product. If a product is released to a customer in a country for which there is no transmission license, the product may be operated only in the country for which a transmission license exists.

If a product does not correspond to the legal requirements in force in the EU but is released to a purchaser within the EU, the product is intended for use solely in the destination country of the end customer outside of the EU for which a transmission license exists. The product may therefore under no circumstances be used directly by the purchaser or released to third parties for the purpose of distribution, application or use on the market within the EU as part of a commercial activity.

In the event of an infringement, the purchaser is obliged to indemnify the supplier against any resulting damages, costs, penalty payments and other expenses.

Function

The compact IUH-F190-V1-FR1-05 read/write head operates in the UHF frequency range and is optimized for use in industrial applications involving medium distances. The device reads and writes passive tags in line with EPC Generation 2 (ISO/IEC 18000-63). The read/write head can be used in Singapure and Vietnam. The read/write head is compliant with the relevant transmission regulations.

Wide range of options supported for filtering data. The read/write head is connected to the IDENT*Control* interface using an M12 connector. The user can monitor the status of the read/write head using the integrated LEDs.

The read/write head has a typical detection range of around 2 meters; this range is determined by the tag used and can be adjusted by configuring the transmission power. Other influencing factors include the setup and installation of the specific application and the surrounding materials, particularly metal. The read and write distances for the relevant tag, which are detailed separately, have been established in a test laboratory under ideal conditions. For the actual read and write distances under real conditions, the combination of read/write head and tag must be tested in the desired application.

Release date: 2018-02-09 11:11   Date of issue: 2018-02-13   309807_eng.xml
