

Datasheet - SET UDS/232

Download software / Up-/download software (UDS)

SCHMERSAL
SOFTWARE

(Minor differences between the printed image and the original product may exist!)

- Smooth read-in and read-out of data of the USP-PI
- Creation of profiles in MS Excel®
- Graphic representation of the shaft copy
- Copying data between multiple UPS-PI
- Archiving of shaft copies
- Connection through USB or RS-232 interface

Ordering details

Product type description	SET UDS/232
Article number	101182091
EAN Code	4030661316796
notice	Download - UDS Software <input type="checkbox"/>
eCl@ss	

Global Properties

Permanent light	Up-/Download-Software - SET UDS/232
version	1.0

Function

With the USP-PI, a maximum of 42 levels and 15 tracks can be processed, i.e. up to 2016 individual values. In that case, the manual input through the PI might be very time-consuming. With the Up-Download Software, the values can be simply entered in an Excel table and transmitted to the PI through PC. Inversely, the values from the PI can be loaded into the PC for further processing.

Input and readout of the data

In combination with the Up-Download Software, the shaft copy data can be smoothly and quickly input or read out in the parallel interface. The values are loaded directly from an Excel table into the parallel interface - without manual input of the values and adjustment on site. The data sets can also be copied and used 1:1 for other elevators.

Hardware requirements

The communication between PI and PC takes place through a RS 485/RS 232 converter either a RS 485/USB converter.

Software requirements

The software is compatible with the Microsoft® operating system © Windows 95/98/ME/NT/2000/XP/Vista.

The software supports Excel 97 and Excel 2000

Both the installation and the de-installation of the software is Windows compatible; the Windows Helpfile can be used.

The programming language is English.

Included in delivery

Up-/download software UDS

RS 485/232 converter and driver

Cable (RS232 - converter)

Cable (USP-PI - converter)

power supply
