## **Pressure Sensor**

## FFMP216 Part Number

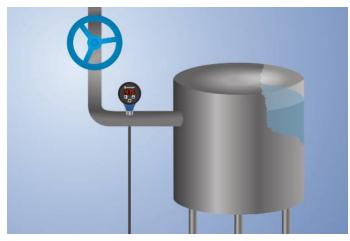

- Highly visible output indicator
- Piggable with flush mounting
- Simple operation via the display
- Space-saving process connection thanks to small pressure membrane

## UniBar pressure sensors measure the relative pressure in closed systems of any medium in the range -1...600 bar.

UniBar pressure sensors are very easy to use thanks to the integrated display. The highly visible switching status display enables the rapid localization of affected sensors for maintenance processes.

Thanks to the metallic sealing edge on the process connection, no further seals are required.

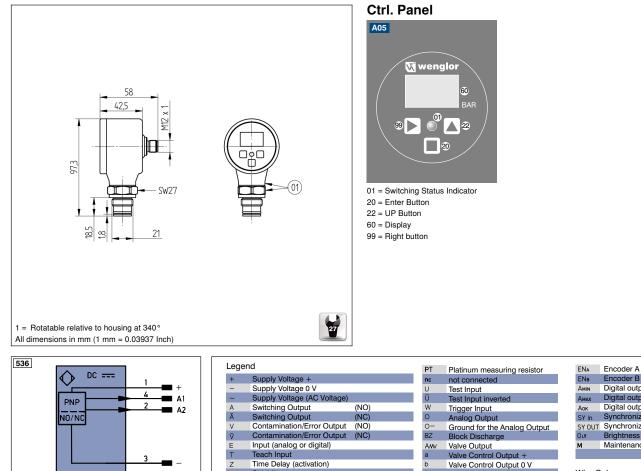

## **Technical Data**

| Sensor-specific data                       |                  |
|--|------------------|
| Measuring Range                            | 010 bar          |
| Maximum overload pressure                  | 20 bar           |
| Bursting pressure                          | 40 bar           |
| Adjustable Range                           | 4100 %           |
| Medium                                     | Liquids, gases   |
| Switching Hysteresis                       | 2 %              |
| Measuring error                            | < ± 0,5 %        |
| Temperature Drift                          | 0,025 %/K        |
| Environmental conditions                   |                  |
| Temperature of medium                      | -2580 °C         |
| Ambient temperature                        | -2580 °C         |
| EMC  | DIN EN 61326-2-3 |
| Shock resistance per DIN IEC 68-2-27       | 30 g / 11 ms     |
| Vibration resistance per DIN IEC 60068-2-6 | 20 g (102000 Hz) |
| Electrical Data                            |                  |
| Supply Voltage                             | 1632 V DC        |
| Current Consumption (Ub = 24 V)            | < 60 mA          |
| Switching Outputs                          | 2                |
| Response Time                              | 30 ms            |
| Switching Output/Switching Current         | < 250 mA         |
| Switching Output Voltage Drop              | < 2 V            |
| Resolution                                 | 10 bit           |
| Short Circuit Protection                   | yes              |
| Reverse Polarity Protection                | yes              |
| Protection Class                           | III              |
| Mechanical Data                            |                  |
| Setting Method                             | Menu             |
| Housing Material                           | PBT; PC; FKM     |
| Material Control Panel                     | Polyester        |
| Material in contact with media             | 1.4435; 1.4404   |
| Degree of Protection                       | IP65 *           |
| Connection                                 | M12 × 1; 4-pin   |
| Process Connection                         | G 1/2"           |
| PNP NO/NC switchable                       |                  |
| Connection Diagram No.                     | 536              |
| Control Panel No.                          | A05              |
| Suitable Connection Technology No.         | 21               |
| Suitable Mounting Technology No.           | 904              |
|  |                  |
