# **Flow Sensor**

# FFXF029

Part Number

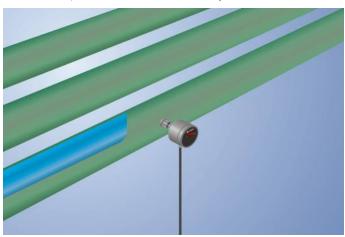

- CIP-capable
- FDA compliant
- Highest precision of its class
- Hygienic design makes it easy to clean
- Measurement independent of flow direction
- Temperature of the medium: 0 ... 60° C (140° C for 24 hours without current measurement)

wenglor UniFlow flow sensors measure the flow rate of aqueous and oily media in closed piping systems.

UniFlow flow sensors are very easy to operate thanks to the removable cover on the integrated display. The highly visible switching status display enables the rapid localization of affected sensors for maintenance processes.

Thanks to the metallic sealing edge on the process connection, no further seals are required.

### InoxSens UniFlow

#### **Technical Data**

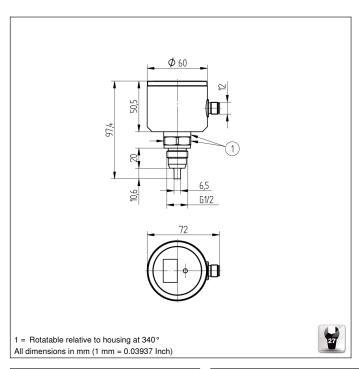

| Sensor-specific data                       |                    |  |  |  |
|--|--------------------|--|--|--|
| Measuring Range                            | 15100 cm/s         |  |  |  |
| Adjustable Range                           | 20100 cm/s         |  |  |  |
| Medium                                     | Oil                |  |  |  |
| Measuring error                            | 2 %                |  |  |  |
| Switching Hysteresis                       | 5 %                |  |  |  |
| Temperature gradient                       | 30 K               |  |  |  |
| Response time in case of temperature jump  | 10 s               |  |  |  |
| Environmental conditions                   |                    |  |  |  |
| Temperature of medium                      | 060 °C             |  |  |  |
| Ambient temperature                        | -2070 °C           |  |  |  |
| Mechanical Strength                        | 60 bar             |  |  |  |
| EMC  | DIN EN 60947-5-9   |  |  |  |
| Shock resistance per DIN IEC 68-2-27       | 30 g / 11 ms       |  |  |  |
| Vibration resistance per DIN IEC 60068-2-6 | 20 g (102000 Hz)   |  |  |  |
| Electrical Data                            |                    |  |  |  |
| Supply Voltage                             | 1632 V DC          |  |  |  |
| Current Consumption (Ub = 24 V)            | 60 mA              |  |  |  |
| Switching Outputs                          | 1                  |  |  |  |
| Analog Output                              | 010 V Flow         |  |  |  |
| Response Time                              | 415 s              |  |  |  |
| Relay Output/Switching Current (24 VDC)    | < 1 A              |  |  |  |
| Current Load Voltage Output                | < 20 mA            |  |  |  |
| Short Circuit Protection                   | yes                |  |  |  |
